

The Lifestyle Microfiber Nursing Bra

Style Number: 121

Once a breastfeeding routine is established and mom has adjusted to the 'new normal', she can count on The Lifestyle Microfiber Nursing Bra to take her from work, to home, to play.

This bra combines a revolutionary design that couples the silky smoothness of microfiber on the outside, with soft Bravado CottonFlex™ fabric in the cup lining. The result is a bra that offers truly amazing shape, support and seamlessness, without compromising comfort and breathability. These are critical elements as mom is going out more, and perhaps going back to work, since she still needs a bra which fulfills her breastfeeding needs, but also provides the appearance and feel of her pre-pregnancy bras. All of that, and beautiful style too!

Product Features

- Bravado CottonFlex™ is a revolutionary double-sided fabric, with the comfort of cotton on one side, and the benefits of polyester/spandex on the other. The result is 100% cotton directly against the skin, giving comfort and breathability, without sacrificing flexibility, support and shape.
- Low neckline and superior fit with molded cups that give an incredibly smooth, seamless shape which is flattering under fitted tops.
- No underwire, as recommended by health care professionals.
- Neckline and straps feature delicate, feminine lace that is soft to the skin.
- Adjustable, softly padded shoulder straps that stay in place and offer continuous support.
- Some sizes have additional rows of hooks and eyes for increased comfort and support.
