

The Essential Nursing Bra Tank

Style Number: 710

With stunning style and a full bra inside, The Essential Nursing Bra Tank was designed to make moms feel fabulous – inside and out! It's stylish enough to wear with great accessories, a jacket or blazer when going out, yet comfy enough to wear hanging around inside. It can even be worn during pregnancy because the fabric of the garment and the bra inside comfortably stretch, while retaining their shape after washing: making it an ideal maternity and transition garment as well.

Product Features

- A molded, seamless bra (not just a shelf bra) that provides complete support and beautiful shaping up to a G cup.
- A bra lined with Bravado! CottonFlex™ fabric. This revolutionary double-sided fabric offers the comfort of cotton and the benefits of polyester/spandex. The result is 100% cotton against the skin giving comfort and breathability, without sacrificing flexibility, support and shape.
- Beautiful, soft and strong cotton/spandex outer fabric that isn't see-through – even in white!
- Flexible sizing, so the garment and the bra inside adapt comfortably to changing breasts and body shapes. It even fits a glowing, growing pregnant belly while retaining its shape after washing.
- Subtle nursing clips that allow for full breastfeeding access.
- Cushioned, adjustable straps for extra comfort.
- A beautiful and flattering shape that is fitted but not clingy, with a hip length that doesn't ride up.
- Design elements such as a subtle front gathering and satin trim, making it a stylish and versatile wardrobe 'must-have'.
- A truly all-occasion, all-season garment: dress it up or dress it down, wear it alone, or as a great layering piece under blouses or jackets.
- A premium product at an affordable price, ensuring multiple purchases – especially with the dual bra and tank benefits, inner and outwear usage opportunities, and multiple nursing/maternity/transition wardrobe occasions.
